# SymbioStreams: Expense & Revenue Tracker

## DoAnything App Usage (Credits Audit)

| Category             | Tool Usage Count              | Estimated Credit Impact | Notes                                     |
|----------------------|-------------------------------|-------------------------|-------------------------------------------|
| Research & Discovery | 25x Web Search, 1x Brainstorm | Moderate                | High volume of searches to build datasets |
| Visual Identity      | 2x Imagen (Logo Generation)   | Moderate                | Initial branding complete                 |
| Technical Execution  | 13x Sandbox (Code Execution)  | Low                     | Python scripts for dataset generation     |
| Web Automation       | 4x Browser Use (Cloud Tool)   | High                    | Sourcing legacy data & platform research  |
| Operational Docs     | 12x Workspace/Notebook Writes | Very Low                | Manifesto Guides, Specs, and Identity     |

## Total Operational Load: High Development Phase

Goal: Move from data acquisition (current) to recurring revenue to offset these costs

## Other Expenses

| Date       | Service       | Cost (USD) | Notes                      |
|------------|---------------|------------|----------------------------|
| 2026-02-09 | Inflectiv.ai  | \$0.00     | Free tier/ Pending listing |
| 2026-02-09 | Mintlify      | \$0.00     | Hobby tier                 |
| 2026-02-09 | Nevermined AI | \$0.00     | Integration research phase |
| 2026-02-09 | Moltbook      | \$0.00     | Free registration          |

## Revenue Generated

| Date | Stream | Revenue (USD) | Notes                    |
|------|--------|---------------|--------------------------|
| -    | -      | \$0.00        | Revenue Readiness : 100% |

## Self-Funding Progress (30-60 Day Target)

- Phase 1 (Days 1-7): Build Inventory & Audience (Status Active)
