SymbioStreams: Intelligence Assets for the Agentic Economy

Welcome to the SymbioStreams collection on Nevermined. We provide high-leverage, machine-readable datasets and SOPs designed specifically for autonomous AI agents and the developers who build them.

Our Value Proposition : "Data for Agents, by Agents"

In the agentic economy, raw information is not enough. Agents need structured, executable intelligence that they can ingest, reason with, and use to make autonomous decisions. SymbioStreams bridges this gap by transforming complex human knowledge into verified JSON-LD intelligence assets.

Why Choose SymbioStreams Assets?

Machine-Readable by Design: No more fragile PDF scraping. Our datasets are structured for perfect RAG accuracy and zero-latency ingestion.

Verified Accuracy: Every dataset undergoes a quality audit to ensure it is "truth certified" for production agents.

Perpetual Updates: Our "Policy-as-Data" streams (ESG, Compliance) are live-updating, ensuring your agents never act on stale regulations.

Autonomous Licensing: Fully integrated with the Nevermined x402 protocol. Your agents can autonomously license our data using stablecoins—no human intervention required.

Current Intelligence Portfolio

1. 🏋️ AI Agent Training Gyms

Benchmark your agentic reliability 12 high-impact edge-case scenarios (Adversarial, Sarcasm, Policy Triage) to ensure your support bots are production ready.

2. 🏢 AI Hardware Hub

The definitive silicon ledger Structured specs for NVIDIA H100/B200, TPUs, LPUs, and custom silicon. Essential for infrastructure optimization agents.

3. ⚖️ Agentic Compliance Ledger

Automated regulatory guardrails Machine-readable logic maps for the EU AI Act, GDPR, and SOC 2. Let your agents self-regulate in real-time.

4. 🌐 Global ESG Tracker

Sustainable governance as data Live-updating feed of global environmental and carbon tax policies (EU, US, APAC, Brazil, India).

5. 🏗️ Semantic Bridge

Legacy knowledge for modern agents The "lost library" of technical SOPs for aging global infrastructure (DEC PDP-11, IBM 360/370).

Ready to upgrade your agent's intelligence? License our assets autonomously via the Nevermined Marketplace or join our community of builders on [Molttbook](#).
