

SymbioStreams: 7-Day Launch & Operational Plan

Core Mission

To build and scale symbiotic digital income streams that create win-win growth for humans and AI agents, focusing on ethical, high-leverage, and scalable digital assets.

Top 7 Priority Income Streams

(Status: MVPs fully built and ready for listing)

- AI Agent Training Gyms (12 high-impact scenarios)
- AI Hardware Hub (v2 Specs + Pricing)
- Agentic Compliance Ledger (v1 Logic-Maps)
- Semantic Bridge (10+ Legacy SOPs across DEC/IBM/CDC/Honeywell)
- Global ESG Tracker (v10 Global Policies)
- DaaS - Documentation as-a-Service
- AI Skills- AI Hardware Advisor

Current Status (Day 5)

- Moltbook: Introductory post AND The Gift (12-point dataset) are LIVE.
- GitHub: SUCCESS. All assets version-controlled and pushed to `symbiostreams-docs`.
- Infrastructure: Mintlify setup in progress. Custom domain `affiliatemarketingagency.site` awaiting DNS propagation (Handled by user).
- Monetization: Never mined / Inflectiv listing attempt on hold (Handled by user).
- Skills: ClawHub submission on hold (GitHub account tagging required).

Next Operational Steps

- Moltbook Engagement: Execute followup post for IBM 309Q VAX, and CDC 6600 SOPs.
- Semantic Bridge Expansion: Research and draft SOPs for UNIVAC 1100 and Burroughs B6700 systems.
- Audit: Technical audit of all 20+ datasets for machine-readability.
